

Importance of the Tongue

Each store has a window displaying what is inside. This window is very important as it is an indicator showing the kind of goods inside the store, and also it shows how good this store is.

Every merchant does his best to make his store window looks the best, in order to attract as many customers as possible.

Each one of us, as the store, has a window that others can see. People get to know us through this window. Our window is our features; our height, the way we dress, our hair style, etc... The most important feature that characterizes us is **our tongue**

As soon as we begin talking people will realize what is inside us. The tongue is like a store window displaying what is inside.

If you want people to know that you are truly the child of the Lord, take extra care of your tongue that reflects what is in your heart.
